RE: Letter of Recommendation for MarBritech

Dear Sir

Marbritech has been providing IT related services to MiTek Industries S.A. for the past 13 years.

During this period it has been a great pleasure working with Mark and his team on a wide range of projects from migration of networks to upgrading of PABX solutions etc. The projects were always handled in a very professional and timely manner.

His enthusiastic and optimistic attitude has always served him well when assisting us during this period. Being able to reference Mark for any IT related problems we have, is testament to his great problem solving skills.

It is really a pleasure to have Marbritech as a supplier of both hardware and IT related services. They have a good understanding of our customer needs.

Yours faithfully,

John Tissong
IT manager
